

Inpatient discharge

On the day of discharge from 10.00 am – 11.00 am

Dear patients,

for organisational reasons, please arrange to be discharged between 10.00 am and 11.00 am on the day of discharge.

What do you need to bear in mind?

- ✦ If possible, please organise for your family or friends to collect you before your stay with us.
- ✦ Please contact us in good time if there is a problem or if there are understandable reasons that make it difficult for you to be discharged within this time frame.
- ✦ You will receive your discharge documents on the day of discharge from the medical service or the nursing staff.
- ✦ If you need a certificate of incapacity for work/certificate of residence, please contact us in good time.

If you have any questions, the ward staff will be happy to help you.
We wish you all the best.

Your clinic management
